EXPERIENCE

Google

Chicago, IL

Analytical Lead Intern

May 2026

- Led data-driven analysis for 10 enterprise clients (\$1B combined quarterly revenue) across Google's Retail and Education portfolios, projecting 15% growth in conversion rates
- Applied marketing mix modeling (MMM), incrementality testing, and experimentation to evaluate campaign effectiveness, informing advertising investment decisions that increased ROAS
- Developed internal pitch decks synthesizing complex data into strategic recommendations for cross-functional stakeholders

Data Services – WashU Libraries

Saint Louis, MO

Student Data Visualization Assistant

February 2025 – Present

- Documented workflows and development guides to enhance user accessibility and understanding of 3D capture, scene development, and AR/VR tools

NYC Tourism + Conventions

New York, NY

Generative AI Specialist Intern

July 2024 – August 2024

- Conducted audience research for NYCT FIFA World Cup 2026 campaign, helping develop targeting for an anticipated audience of 1.2M regional visitors
- Built a brand-language GPT tool utilizing OpenAI to scale content production across the marketing team, cutting turnaround time 30%
- Created the first draft of the company policy for AI integration and compliance

PROJECTS

WashU Campus Creamery Rewards App - Figma, React Native, TypeScript

Google Developer Groups, Designer and Developer

- Partnered with a cross-functional team to ship a mobile loyalty rewards app for WashU's on-campus ice cream shop, earning engagement from ~1,000 students
- Conducted user research with students to identify needs.
- Prioritized features based on feedback and project constraints.
- Collaborated with developers throughout the product lifecycle.
- Built prototypes in Figma before implementation in TypeScript.

LEADERSHIP & PROFESSIONAL DEVELOPMENT

SEO Tech Developer

New York, NY

Intern

June 2025 – Present

- Built an end-to-end product using APIs with authorization, unit testing, and database integration, serving as Scrum Master to coordinate team workflow and sprint planning.

Management Leadership for Tomorrow

New York, NY
